 X PERS is an electronic device which enables certain individuals at high risk of institutionalization to secure help in the event of an emergency. The client may also wear a portable "help" button to allow for mobility. The system is connected to the person's phone and programmed to signal a response center once a "help" button is activated. The response center is staffed by trained professionals, as specified in Appendix B-2. PERS services are limited to those individuals who live alone, or who are alone for significant parts of the day, and have no regular caretaker for extended periods of time, and who would otherwise require extensive routine supervision.

 X Other Service Definition (Specify):

This service is designed to monitor waiver participant safety and/or provide waiver participant access to emergency crisis intervention for emotional, medical or environmental emergencies through the provision of communication connection systems. By providing immediate access to assistance, PERS serves to prevent institutionalization.

n. Adult companion services:

 Non-medical care, supervision and socialization, provided to a functionally impaired adult. Companions may assist the individual with such tasks as meal preparation, laundry and shopping, but do not perform these activities as discrete services. The provision of companion services does not entail hands-on medical care. Providers may also perform light housekeeping tasks which are incidental to the care and supervision of the client. This service is provided in accordance with a therapeutic goal in the plan of care, and is not purely diversional in nature.

 Other Service Definition (Specify):

o. Private duty nursing:

For purposes of this service, "family" is defined as the persons who live with or provide care to a recipient of waiver services, and may include a parent, spouse, children, relatives, foster family, or in-laws. "Family" does not include individuals who are employed to care for the recipient. Training includes instruction about treatment regimens and use of equipment specified in the plan of care, and shall include updates as may be necessary to safely maintain the individual at home. All family training must be included in the individual's written plan of care.

_____ Supervision will be provided by a Registered Nurse, licensed to practice in the State. The frequency and intensity of supervision will be specified in the individual's written plan of care.

_____ Supervision may be furnished directly by the client, when the client has been trained to perform this function, and when the safety and efficacy of client-provided supervision has been certified in writing by a registered nurse or otherwise as provided in State law.

This certification must be based on observation of the client and the specific attendant care provider, during the actual provision of care. Documentation of this certification will be maintained in the client's individual plan of care.

____ Adult Foster Care. Personal care and services, attendant care and companion services provided in a licensed (where applicable) private home by a principal care provider who lives in the home. Adult foster care is furnished to 1 or 2 adults who receive these services in conjunction with residing in the home. The total number of individuals (including clients) living in the home, who are unrelated to the principal care provider, cannot exceed 4 (or a lower number as provided by State law). Separate payment will not be made for homemaker or chore services furnished to an individual receiving adult foster care services, since these services are integral to and inherent in the provision of adult foster care services.

____ Assisted Living. Personal care and services, homemaker, chore, attendant care, companion services, medication oversight (to the extent permitted under State law), therapeutic social and recreational programming, provided in a licensed community care facility, in conjunction with residing in the facility. This service includes 24 hour on site response staff to meet scheduled or unpredictable needs and to provide supervision of safety and security. Other individuals or agencies may also furnish care directly, or under arrangement with the community care facility, but the care provided by these other entities supplements that provided by the community care facility and does not supplant it.

Personalized care is furnished to individuals who reside in their own living units (which may include dually occupied units when both occupants consent to the arrangement) which may or may not include kitchenette and/or living rooms as well as bedrooms. Living units may be locked at the discretion of the client except when a physician or mental health professional has certified in writing that the client is sufficiently cognitively impaired as to be a danger to self or others if given the opportunity to lock the door. (This requirement does not apply where it conflicts with fire code.) Each living unit is separate and distinct from each other. The facility must have a central dining room, living room or parlor, and common activity center(s) (which may also serve as living rooms or dining rooms). The consumer retains the right to assume risk, tempered only by the individual's ability to assume responsibility for that risk. Care must be furnished in a way which fosters the independence of each consumer to facilitate aging in place. Routines of care provision and service delivery must be consumer -driven to the maximum extent possible, and treat each person with dignity and respect.

Assisted Living services may also include (check all that apply):

____ Other service definition (specify):_____

Payments for adult residential care services are not made for room and board, items of comfort or convenience, or the costs of facility maintenance, upkeep, and improvement. Payment for adult residential care services does not include payments made, directly or indirectly, to members of the recipient's immediate family. X Day Care: A supervised, structured day program, outside the home of the participant or provider, that offers one (1) or more of a variety of social, recreational, health activities, supervision for safety, and assistance with activities of daily living. Room and board is not included in this service. These activities need to be identified on the Individual Support Plan.

t. Extended State plan services:

The following services, available through the approved State plan, will be provided, except that the limitations of amount, duration and scope specified in the plan will not apply. Services will be as defined and described in the approved State plan. The provider qualifications listed in the plan will apply, and are hereby incorporated into this waiver request by reference. Appendix C-2 -- Post-Eligibility

GENERAL INSTRUCTIONS

ALL Home and Community-Based waiver recipients found eligible under 435.217 are subject to post-eligibility calculations.

Eligibility and post-eligibility are two separate processes with two separate calculations. Eligibility determines whether a person may be served on the waiver. Post-eligibility determines the amount (if any) by which Medicaid reduces its payment for services furnished to a particular individual. By doing so, post-eligibility determines the amount (if any) for which an individual is liable to pay for the cost of waiver services.

An eligibility determination (and periodic redetermination) must be made for each person served on the waiver.

Post-eligibility calculations are made ONLY for persons found eligible under §435.217.

Post-eligibility determinations must be made for all groups of individuals who would be eligible for Medicaid if they were in a medical institution and need home and community-based services in order to remain in the community (§435.217). For individuals whose eligibility is not determined under the spousal rules (§1924 of the Social Security Act), the State must use the regular post-eligibility rules at 435.726 and 435.735. However, for persons found eligible for Medicaid using the spousal impoverishment rules, the State has two options concerning the application of post-eligibility rules:

OPTION 1: The State may use the post-eligibility (PE) rules under 42 CFR §435.726 and §435.735 just as it does for other individuals found eligible under §435.217 or;

OPTION 2: it may use the spousal post-eligibility rules under §1924.

REGULAR POST-ELIGIBILITY RULES--§435.726 and §435.735

- o The State must provide an amount for the maintenance needs of the individual. This amount must be based upon a reasonable assessment of the individual's needs in the community.
- o If the individual is living with his or her spouse, or if the individual is living in the community and the spouse is living at home, the State must protect an additional amount for the spouse's maintenance. This amount is limited by the highest appropriate income standard for cash assistance, or the medically needy standard. The State may choose which standard to apply.
- o If the individual's spouse is not living in the individual's home, no maintenance amount is protected for that spouse's needs.

- o If other family members are living with the individual, an additional amount is protected for their needs. This amount is limited by the AFDC need standard for a family of the same size or by the appropriate medically needy standard for a family of the same size. The State may choose which standard to apply.

SPOUSAL POST-ELIGIBILITY--§1924

When a person who is eligible as a member of a 42 CFR 435.217 group has a community spouse, the State may treat the individual as if he or she is institutionalized and apply the post-eligibility rules of §1924 of the Act (protection against spousal impoverishment) instead of the post-eligibility rules under 42 CFR 435.726 and 435.735. The §1924 post-eligibility rules provide for a more generous community spouse and family allowance than the rules under 42 CFR 435.726 and 435.735. Spousal impoverishment post-eligibility rules can only be used if the State is using spousal impoverishment eligibility rules.

The spousal protection rules also provide for protecting a personal needs allowance (PNA) "described in §1902(q)(1)" for the needs of the institutionalized individual. This is an allowance which is reasonable in amount for clothing and other personal needs of the individual . . . while in an institution." For institutionalized individuals this amount could be as low as \$30 per month. Unlike institutionalized individuals whose room and board are covered by Medicaid, the personal needs of the home and community-based services recipient must include a reasonable amount for food and shelter as well as for clothing. The \$30 PNA is not a sufficient amount for these needs when the individual is living in the community.

Therefore, States which elect to treat home and community-based services waiver participants with community spouses under the §1924 spousal impoverishment post-eligibility rules must use as the personal needs allowance either the maintenance amount which the State has elected under 42 CFR 435.726 or 42 CFR 435.735, or an amount that the State can demonstrate is a reasonable amount to cover the individual's maintenance needs in the community.

X The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the individual's contribution toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There shall be deducted from the individual's monthly income a personal needs allowance (as specified below), and a community spouse's allowance, a family allowance, and an amount for incurred expenses for medical or remedial care, as specified in the State Medicaid plan.

(A) Allowance for personal needs of the individual: (check one)

(a)___ SSI Standard

(b)___ Medically Needy Standard

(c)___ The special income level for the institutionalized

(d)___ The following percent of the Federal poverty level:
____%

(e)___ The following dollar amount
\$____**

**If this amount changes, this item will be revised.

(f)___ The following formula is used to determine the needs allowance:

g) X Other (specify):
300% of the SSI Standard

If this amount is different from the amount used for the individual's maintenance allowance under 42 CFR 435.726 or 42 CFR 435.735, explain why you believe that this amount is reasonable to meet the individual's maintenance needs in the community.

APPENDIX D

ASSESSMENT INSTRUMENTS COMPREHENSIVE ASSESSMENT

Purpose: The initial comprehensive assessment is the collection of in-depth information about an applicant's health, current situation, and ability to function which allows for the identification of the person's strengths, desires and choices, and needs in the major life functioning areas. It is broadly based in that it covers a wide range of functional areas, and it is comprehensive in that it closely examines each area of functioning. It identifies the services and help currently provided by informal and formal supports and the need for additional services and supports. The results of the comprehensive assessment will be the basis for determination of eligibility for waiver services and the development of the Individual Support Plan.

Process:

1. The Treatment Team from ISSH with the assistance of the ISSH liaison and regional care manger will be responsible for gathering all required materials comprising the comprehensive assessment. The Treatment Team from ISSH will complete the functional assessment.
2. The initial comprehensive assessment will include the following materials or documents, at a minimum:
 - a) A functional assessment approved by the Department of Health & Welfare: Woodcock-Johnson, Scales of Independent Behavior; Adaptive Behavior Scale, Revised
 - b) A written narrative - medical, physical, and social history.
 - c) Specialized assessments (Medical, behavioral, mobility, etc.) as necessary.
 - d) Any legal paperwork pertaining to the adolescent's need for placement at ISSH.

APPENDIX D-1

The agency will provide for an evaluation (and periodic reevaluations) of the need for the level(s) of care indicated in item 2 of this request, when there is a reasonable indication that individuals might need such services in the near future, but for the availability of home and community-based services.

b. QUALIFICATIONS OF INDIVIDUALS PERFORMING INITIAL EVALUATION

The educational/professional qualifications of persons performing initial evaluations of level of care for waiver participants are (check all that apply):

☐ Discharge planning team

Selective Testing

Suggested Starting Points

The following suggested starting points are guides for minimizing testing time for the interview-administration procedure. To use this table, begin by estimating the age level at which the individual is functioning *developmentally*. Then identify the suggested starting points from the table below.

	Estimated Developmental Age			
	Preschool-Kindergarten	Elementary School	Middle School	High School-Adult
Item				
Subscale A: Gross-Motor Skills	1	5	10	10
Subscale B: Fine-Motor Skills	1	5	10	10

Basal Rule	Begin testing at the suggested starting point. If three out of the first five items administered are not scored 3, return to the starting point and test backward until three out of five consecutive items have been scored 3 or until Item 1 has been administered. Return to the highest item administered.
Ceiling Rule	Test until three out of five consecutive items are scored 0 or until the last item in the subscale has been administered.

Instructions

- Mark how well the individual does (or could do) each task completely without any help or supervision.
- If you have not seen the individual do the task (or if he or she never has the chance to do the task), mark how well you think he or she could do the task now (without any help).
- Mark the highest rating (3: Does very well) for tasks that are now too easy for the individual.

Does (or could do) task completely without help or supervision:

0 — NEVER OR RARELY—even if asked

1 — DOES, BUT NOT WELL—or about $\frac{1}{4}$ of the time—may need to be asked

2 — DOES FAIRLY WELL—or about $\frac{3}{4}$ of the time—may need to be asked

3 — DOES VERY WELL—always or almost always—without being asked

MALADAPTIVE BEHAVIOR WORKSHEET

Instructions

- Step 1. Transfer the frequency and severity ratings for each of the eight problem behavior categories to the corresponding line in the Problem Behavior column.
- Step 2. Circle the Part Score (PS) corresponding to each of the individual's Frequency and Severity ratings.
- Step 3. Circle the Part Score corresponding to the individual's age in years.
- Step 4. Total the circled Part Scores for each index and record in the space labeled "Sum."
- Step 5. Subtract this sum from 100 to obtain the Maladaptive Index. Indicate a "+" or "-" with the difference as appropriate.
- Step 6. Transfer these scores to the Maladaptive Behavior Indexes Profile on page 26.

Interpretation

The indexes have a mean of zero for normal clients of the same age. Negative scores indicate problem behavior toward the maladaptive end of the scale. The typical standard deviation observed in various clinical samples at several age levels is 10 points. Nonhandicapped groups typically have standard deviations of about 8 points. Evaluating the clinical significance of the Maladaptive Behavior Indexes may be aided by using the levels of seriousness in the following table. These levels of seriousness also appear at the bottom of the Maladaptive Behavior Indexes Profile on page 26.

Level of Seriousness	Index Value
N—Normal	+10 to -10
MgS—Marginally Serious	-11 to -20
MdS—Moderately Serious	-21 to -30

These reviews will take place to determine the appropriateness and adequacy of the services, and to ensure that the services furnished are consistent with the nature and severity of the recipient's disability. The minimum schedule under which these reviews will occur is:

☐ Every 6 months
☐ Every 12 months
☐ Other (specify).

APPENDIX E-2

a. MEDICAID AGENCY APPROVAL

The following is a description of the process by which the plan of care is made subject to the approval of the Medicaid agency:

The Individual Support Plan (ISP) is developed by the Person Centered Planning team. The team consists of the waiver participant and a plan developer which may be a targeted service coordinator or an unpaid plan developer or the participant, and may include other people identified by the waiver participant, such as:

- a) the waiver participant's family or legal guardian;
- b) other interested parties/advocates;
- c) potential providers of waiver services when known;
- d) a representative of the facility from which the person is leaving who is familiar with the individual.

Efforts will be made to maximize the individual's participation on the PCP team by providing the waiver participant with information and education regarding his/her rights and role.

The Plan developer will determine the cost of waiver services. Based on the ISP, the plan developer will compare the costs of waiver services to the cost of care at ISSH.

The Plan Developer (for new participants) and Independent Assessment Provider (for participants at redetermination) will submit the ISP to the Care Manager at the Regional Medicaid Services Unit for service authorization for the services on ISP.

b. STATUTORY REQUIREMENTS AND COPY OF PLAN OF CARE

- 1. The plan of care will contain, at a minimum, the type of services to be furnished, the amount, the frequency and duration of each service, and the type of provider to furnish each service.
- 2. A copy of the plan of care form to be utilized in this waiver is attached to this Appendix.

 - b. When the service was included in the approved plan of care;
 - c. In the case of supported employment, prevocational or education services included as part of habilitation services, when the client was eligible to receive the services, and the services are not available to the client through a program funded under section 602(16) or (17) of the Education of Handicapped Act (P.L. 94-142) or section 110 of the Rehabilitation Act of 1973.

APPENDIX G-3

METHODS USED TO EXCLUDE PAYMENTS FOR ROOM AND BOARD

The purpose of this Appendix is to demonstrate that Medicaid does not pay the cost of room and board furnished to an individual under the waiver.

- A. The following service(s), other than respite care*, are furnished in residential settings other than the natural home of the individual (e.g., foster homes, group homes, supervised living arrangements, assisted living facilities, personal care homes, or other types of congregate living arrangements). (Specify):

*NOTE: FFP may be claimed for the cost of room and board when provided as part of respite care in a Medicaid certified NF or ICF/MR, or when it is provided in a foster home or community residential facility that meets State standards specified in this waiver.)

- B. The following service(s) are furnished in the home of a paid caregiver. (Specify):

Residential Habilitation

Attached is an explanation of the method used by the State to exclude Medicaid payment for room and board.

The reimbursement rate methodology for this service does not include a component for room and board. Providers get room and board reimbursement through SSI or State Supplemental Payments.

APPENDIX G-4

METHODS USED TO MAKE PAYMENT FOR RENT AND FOOD EXPENSES OF AN UNRELATED LIVE-IN CAREGIVER

Check one:

 X The State will not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who lives with the individual(s) served on the waiver.

 The State will reimburse for the additional costs of rent and food attributable to an unrelated live-in personal caregiver who lives in the home or residence of the individual served on the waiver. The service cost of the live-in personal caregiver and the costs attributable to rent and food are reflected separately in the computation of factor D (cost of waiver services) in Appendix G-2 of this waiver request.

Attached is an explanation of the method used by the State to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver.

APPENDIX G-5

FACTOR D'

LOC:

NOTICE: On July 25, 1994, HCFA published regulations which changed the definition of factor D'. The new definition is:

"The estimated annual average per capita Medicaid cost for all other services provided to individuals in the waiver program."

Include in Factor D' the following:

The cost of all State plan services (including home health, personal care and adult day health care) furnished in addition to waiver services **WHILE THE INDIVIDUAL WAS ON THE WAIVER.**

The cost of short-term institutionalization (hospitalization, NF, or ICF/MR) which began **AFTER** the person's first day of waiver services and ended **BEFORE** the end of the waiver year **IF** the person returned to the waiver.

Do NOT include the following in the calculation of Factor D':

If the person did NOT return to the waiver following institutionalization, do NOT include the costs of institutional care.

Do NOT include institutional costs incurred **BEFORE** the person is first served under the waiver in this waiver year.

If institutional respite care is provided as a service under this waiver, calculate its costs under Factor D. Do not duplicate these costs in your calculation of Factor D'.

APPENDIX G-5

FACTOR D' (cont.)

LOC: ICF/MR

Factor D' is computed as follows (check one):

☐ Based on HCFA Form 2082 (relevant pages attached).

☐ Based on HCFA Form 372 for years ☐ of waiver
☐, which serves a similar target population.

☐ Based on a statistically valid sample of plans of care for individuals with the disease or condition specified in item 3 of this request.

☒ Other (specify): Estimates were derived from AIM (Advanced Information Management System) data, based on historical data that was trended forward.

APPENDIX G-6

FACTOR G

LOC: ICF/MR

The July 25, 1994 final regulation defines Factor G as:

"The estimated annual average per capita Medicaid cost for hospital, NF, or ICF/MR care that would be incurred for individuals served in the waiver, were the waiver not granted."

Provide data ONLY for the level(s) of care indicated in item 2 of this waiver request.

Factor G is computed as follows:

- ☐ Based on institutional cost trends shown by HCFA Form 2082 (relevant pages attached). Attached is an explanation of any adjustments made to these numbers.
- ☐ Based on trends shown by HCFA Form 372 for years ____ of waiver #____, which reflect costs for an institutionalized population at this LOC. Attached is an explanation of any adjustments made to these numbers.
- ☐ Based on actual case histories of individuals institutionalized with this disease or condition at this LOC. Documentation attached.
- ☐ Based on State DRGs for the disease(s) or condition(s) indicated in item 3 of this request, plus outlier days. Descriptions, computations, and an explanation of any adjustments are attached to this Appendix.
- ☒ Other (specify): Estimates were derived from AIM (Advanced Information Management System) data, based on historical data that was trended forward.

If institutional respite care is provided as a service under this waiver, calculate its costs under Factor D. Do not duplicate these costs in your calculation of Factor G.

APPENDIX G-7

FACTOR G'

LOC: ICF/MR

The July 25, 1994 final regulation defines Factor G' as:

"The estimated annual average per capita Medicaid costs for all services other than those included in Factor G for individuals served in the waiver, were the waiver not granted.

Include in Factor G' the following:

The cost of all State plan services furnished WHILE THE INDIVIDUAL WAS INSTITUTIONALIZED.

The cost of short-term hospitalization (furnished with the expectation that the person would return to the institution) which began AFTER the person's first day of institutional services.

If institutional respite care is provided as a service under this waiver, calculate its costs under Factor D. Do not duplicate these costs in your calculation of Factor G'.

APPENDIX G-7
